§ 300.44 Other inspections.

The operator and each member of the crew of any vessel from which any fish taken in the Licensing Area is unloaded or transshipped shall allow, or arrange for, and assist any authorized inspector, authorized party officer, or authorized officer to have full access to any place where the fish is unloaded or transshipped, to remove samples, to have full access to the vessel's records, including its log and documentation for the purpose of inspection and photocopying, and to gather any other information relating to fisheries in the Licensing Area without interfering unduly with the lawful operation of the vessel.

§ 300.45 Vessel Monitoring System.

(a) *Applicability.* Holders of vessel licenses issued under § 300.32 are required, in order to have the licensed vessel in the Treaty Area, to:

(1) Have installed a VMS unit on board the licensed vessel;

(2) Allow the Administrator, its agent, or a person authorized by the Administrator to program the VMS unit to transmit position and related information to the Administrator;

(3) If directed by the Regional Administrator, allow NMFS, its agent, or a person authorized by NMFS to program the VMS unit to transmit position and related information to NMFS; and

(4) Carry and have operational the VMS unit at all times while in the Treaty Area, except as provided in paragraphs (f) and (g) of this section.

(b) *FFA Vessel Register.* Purse seine vessels must be in good standing on the FFA Vessel Register maintained by the Administrator in order to be licensed

under the Treaty. FFA Vessel Register application forms may be obtained from the Regional Administrator or the Administrator or from the FFA Web site: <http://www.ffa.int>. Purse seine vessel owners or operators must submit completed FFA Vessel Register applications to the Regional Administrator for transmittal to the Administrator and pay fees for registration of their vessel(s) on the FFA Vessel Register annually. The vessel owner or operator may submit a completed FFA Vessel Register application form at any time, but the application must be received by the Regional Administrator at least seven days before the first day of the next licensing period to avoid the potential lapse of the registration and license between licensing periods.

(c) *VMS unit installation.* A VMS unit required under this section must be installed by a person authorized by the Administrator. A list of Administrator-authorized VMS unit installers may be obtained from the Regional Administrator or the Administrator.

(d) *Hardware and software specifications.* The VMS unit installed and carried on board a vessel to comply with the requirements of this section must consist of hardware and software that is approved by the Administrator and able to perform all functions required by the Administrator. A current list of approved hardware and software may be obtained from the Administrator.

(e) *Service activation.* Other than when in port or in a shipyard and having given proper notification to the Administrator as specified in paragraph (g) of this section, the owner or operator of a vessel licensed under § 300.32 must, when the vessel is in the Treaty Area:

(1) Activate the VMS unit on board the licensed vessel to transmit automatic position reports;

(2) Ensure that no person interrupts, interferes with, or impedes the operation of the VMS unit or tampers with, alters, damages, or disables the VMS unit, or attempts any of the same; and

(3) Ensure that no person moves or removes the VMS unit from the installed position without first notifying the Administrator by telephone, facsimile, or e-mail of such movement or removal.
